

Annual report of China Chapter of Vascular Access Society

In the year of 2020, China Chapter of Vascular Access Society is trying to develop more members as well as to let more Chinese nephrologists, vascular surgeons and nurses to know about Vascular Access Society. We promote an association of specialists who are substantially involved in the care of patients with dialysis access. In 14th Nov, we held the annual meeting with doctors, nurses, and technicians, who were involved in the care of patients having a dialysis access. The number of participants in the meeting was over 200. We discussed the problems of creating vascular access as well as educated young physicians about the complications of vascular access. In the meeting, all the members of the China Chapter agreed to develop more program in the domain of vascular access and apply grant from Vascular Access Society to participate international research between China and VAS.
