

VAS Polish Chapter Annual Report 2020

It is difficult to work in all areas due to COVID epidemic. Polish Chapter was formed in close collaboration with Polish Association for Vascular Access. Last PAVA conference was done in October 2019 and next one was planned for 2021 but it will be postponed. All the meetings in 2020 that were prepared by people related with the Chapter were canceled. People involved in VAS Chapter were as follows: Mariusz Kusztal, Małgorzata Misiak, Michał Wruk, Tomasz Gołębiowski, Jakub Turek, Anna Kliś, Aneta Trzcińska, and me. At the moment in the members list of VAS the number of people from Poland is lower. I know that Mariusz Kusztal has planned to prepare translation of the vascular access guide for the patient, I find it extremely useful. I will contact all my friends devoted to vascular access to organize post-VAS webinar.

With best regards,
