

VASCULAR ACCESS SOCIETY
SPONSORSHIP OPPORTUNITIES

www.vascularaccesssociety.com

REASONS TO SUPPORT

The Vascular Access Society (VAS) was founded on 30 October 1997, during the 3rd International Congress on Access for Dialysis in Maastricht, the Netherlands. VAS is a multidisciplinary society which is of interest to nephrologists, surgeons, interventional radiologists, dialysis nurses, vascular and radiological Technologists. VAS is the leading international vascular access society is involved in various types of education, practising and scientific exchange in this field. VAS organizes an International Congress every two years in one of the countries in Europe. Every year at least one Vascular Access Course will be held in a European City. The multidisciplinary council of the VAS consists of nephrologists, surgeons and radiologists and representatives from each European country will be asked to join the board.

VAS is a non-profit organization and all board and council members are volunteers dedicated to an endless mission of education to access vascular hemodialysis. Facing this task, VAS needs external support to fund its activities and we call on our fellows from the medical industry and those who are interested in a vascular approach to side with VAS in order to fulfil the society's vision with your kind donation.

Why should you engage in VAS as a partner alongside your contribution to VAS activities?

1. Company awareness among VAS members

By spreading your company logo on several platforms, you will create awareness among experts from different countries.

2. Information provision

As a VAS industry partner you will be able to inform our members on your latest products and developments via our Newsletters and on Social Media.

3. Stay informed

By sponsoring the society you will be the first informed about future congresses, meeting and workshops to attend as an industry partner.
