

Vascular Access Society
Ultrasound & Endovascular Vascular Access Course
17-18 June 2026

**Hands-on workshop ultrasound & endovascular intervention of
hemodialysis vascular access**

2-days course

Dates: 17 & 18 June 2026

Location: iMEP Training Center, Mechelen, Belgium

Number of participants: 16

Target audience: Vascular Surgeons; Nephrologists; Radiologists

Language: English

Purpose: To obtain knowledge and hands-on training of ultrasound & endovascular intervention of hemodialysis vascular access (preoperative vessel mapping; duplex scanning vascular access; endovascular intervention)

Faculty

Tamara Jemcov, nephrologist, Belgrade

Alexandros Mallios, vascular surgeon, Paris

Jan Tordoir, vascular surgeon, Maastricht

Day 1

12h30

Registration

13h00-14h30

Presentations (plenary session)

Upper extremity vascular anatomy

Preoperative vessel assessment

Ultrasound imaging of complicated VA

Indications for endovascular VA intervention

14h30-15h30

Rotation hands-on workshop

Ultrasound room 1 Preop vessel assessment/PTA & stent placement on models

Ultrasound room 2 Duplex scanning of vascular access

Angiosuite Endovascular intervention on model

15h30-16h00

Coffee break

16h00-17h00

Rotation hands-on workshop

Ultrasound room 1 Preop vessel assessment/PTA & stent placement on models

Ultrasound room 2 Duplex scanning of vascular access

Angiosuite Endovascular intervention on model

17h00-18h00

Patient case presentations

Day 2

09h00-10h30 Presentations (plenary session)

*Conventional, drug coated balloons
& stents for endovascular intervention
Enhancement of AVF maturation
Intervention for AVF and AVG stenosis & thrombosis
Cephalic arch & central vein obstruction*

10h30 Coffee break

11h00-12h00 Rotation hands-on workshop

Ultrasound room 1 Preop vessel assessment/PTA & stent placement on models
Ultrasound room 2 Duplex scanning of vascular access
Angiosuite Endovascular intervention on model

12h00-13h00 Patient case presentations

13h00 Adjourn
